HITACHI
Inspire the Next

Introducing the world's first 1080 line 42" plasma with built-in HDTV Tuner.

Hitachi's 42PD9603TA incorporates state-of-the-art screen technology that gives you outstanding High Definition picture quality. Add to that an integrated High Definition digital tuner, and you'll see it's a clear leader in its class.

The advanced 1024 x 1080 line AIB panel reproduces fine detail to perfection. The unit also features built-in HDMI digital inputs, as well as USB camera and SD card photo inputs for sharing your precious memories. Plus you can enjoy all this from the comfort of your chair with the remote controlled motorised swivel that allows you to turn the screen 90° either direction of centre.

Hitachi offers a range of 42", 50" and 58" plasma models, or consider our LCD range, available in 26", 32" and 37" screen sizes.

So, when you think High Definition, think Hitachi.

To see the latest Hitachi Plasma and LCD range from every angle, visit us at www.hitachi.com.au/australia or call 1800 HITACHI.

GPS with Bluetooth and Media Centre.

HITACHI
